

Dendrogram illustrating the hierarchical clustering of 10 MEs (ME0 to ME9) based on their correlation with the 1000 Genes dataset. The y-axis represents the distance scale from 0.2 to 1.2. The dendrogram shows that ME7 and ME8 cluster first, followed by ME3 and ME4. ME2, ME5, and ME6 form another cluster, while ME0, ME1, and ME9 form a third. The two main branches join at a distance of approximately 1.2.

Heatmap showing the correlation between 10 MEs (ME0 to ME9) and 10 FEs (FE0 to FE9). The color scale ranges from 0 (blue) to 1 (red).
